WORK EXPERIENCE

Full Stack Development • Internship

May 2025 - Present

Navikshaa Technologies, Bangalore

Currently working as a Full Stack Developer intern at Navikshaa Technologies.
I'm building responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
My tasks include developing user interfaces, backend APIs, and managing MongoDB databases.
I've implemented secure authentication systems and interactive admin dashboards.
Using Git and Agile practices, I collaborate with the team to deliver production-ready features.
This internship has enhanced my real-world debugging, coding, and deployment skills.
I'm focused on building scalable, clean, and user-friendly applications.

Cloud Computing • Internship

Jun 2023 - Aug 2023

APSSDC, Virtual

Tech Stack: AWS (EC2, RDS, S3), AWS Lambda, VPC, IAM
Acquired practical experience with AWS services, including EC2, RDS, and S3. Mastered core cloud concepts such as deployment models, service models, and cloud architecture. Enhanced skills in designing scalable systems, managing data storage, implementing security protocols, and optimizing performance.

EDUCATION

B.Tech,

2021 - 2025

SRM University AP

CGPA: 7.10/10

Senior Secondary (XII), BIEAP

2021

SRI CHAITANYA JUNIOR COLLEGE

Percentage: 82.60%

Secondary (X), Ssc

2019

City Public School

Percentage: 97.00%
